- Collaborated closely with developers to identify and troubleshoot application bugs, contributing to a smoother development process and faster turnaround times.
- Used Source Tree and JIRA to follow agile software development practices

Senior Software Engineer

Aug 2017 – Aug 2022

Kellton Tech Solutions Ltd., India

Project: BUDDY CRM

Skill Set: jQuery, HTML, CSS, C#, WCF REST Service, SQL Server

Project Description: Buddy is easy-to-use online CRM software for the sales team. It manages and keeps records of company interactions with customers. Buddy keeps track of activities like calls, appointments, tasks, emails, and other important documents related to customers in one place so that the sales team knows everything in advance about their customers before contacting them.

Roles and Responsibility:

- Implemented MailSlurp integration to create dynamic mailboxes. Any mail sent to these email addresses will be received by MailSlurp servers, then fetch email data from these inboxes
- Worked on Window Service. Developed dynamic deletion of created reports after 30 Days. Read data from the FTP Server at a particular time of day.
- Created interactive Web Pages using jQuery
- Implemented Nunit in BuddyCRM. Unit test case to test individual parts for finding issues at an early stage of development
- Handled client calls, responded to their queries, and worked on client priority issues.
- Handling Code production and guiding and mentoring junior developers.

Project: QSS Connect

Skill Set: jQuery, HTML, C#, ASP.NET, SQL Server

Project Description: QSSConnect is designed to allow the movement of sales data from MINDBODY to Xero. It notes transaction details of data retrieved from MINDBODY. MINDBODY helps businesses provide software to manage online booking, they have solutions to help industries like yoga, salons, etc. QSSConnect is a hosted connector service that allows you to link your cloud software services together to copy data from one to other.

Roles and Responsibility:

- Worked on MVC-created form and handling data
- Worked on SQL creating Stored Procedures, Constraints, Indexes, Views, Cursors, Triggers, and User Defined Functions

Academic Background

Bachelor of Technology in Computer Science and Engineering

2013 to 2017

GEU, Dehradun - India
