EXPERIENCE

Graham Partners

Private Equity Summer Analyst

Newtown Square, PA

May 2024-August 2024

- Gained live leveraged buyout deal experience at leading middle market private equity firm through conducting comprehensive financial, market, customer, and competitor due diligence on investment opportunities, including reviewing CIPs and data room materials, creating LBO models, and actively participating in diligence meetings with company management teams
- Pitched a platform investment opportunity through developing a Gating Committee deck consisting of investment highlights, diligence areas, and an LBO model with refined assumptions, and presented an investment thesis and recommendation to the Investment Team
- Completed an Investment Theme Presentation on data center cooling solutions by conducting research on the specific industry niche, building an actionable target list that fit within Graham's investment criteria, and presenting findings to the Investment and Operations Teams
- Completed Training the Street modeling course covering valuation methodologies, an 8-session accounting course with a Villanova accounting professor, and comprehensive Excel, Three Statement Model, and LBO Model training
- Participated in weekly learning series with private equity investment professionals, third-party diligence providers, and portfolio company executives

Social New Venture Challenge

Product Development Intern

Chicago, Illinois

March 2023 – June 2024

- Collaborated with startup founders to craft mock-ups of flows and develop functionality of the minimum viable product
- Attended and led weekly team meetings on minimum viable product development, goals, and progress benchmarks

Cimmarron Alternative Investments

Investment Research Intern

Chicago, Illinois

November 2022 – February 2023

- Leveraged Excel to analyze over 1300 individual stocks in short span after EOQ, summarizing their past performance and providing key insights into past and future buy/sell decisions

LEADERSHIP & ACTIVITIES

University of Chicago

Teaching Assistant and Course Grader

Chicago, Illinois

January 2023 – Present

- Collaborated with Professor Pliny Smith and other TAs to lead office hours, guide 30+ students through activities and labs, and provide individualized support
- Graded 500+ assignments for ~25 students over the course of the quarter, providing tangible comments and welcoming questions during office hours with students

Student-Run Startup (Tumble)

Chief Technology Officer

Chicago, Illinois

April 2022 – January 2023

- Collaborated with executive team to craft a detailed business plan, financial models, and marketing materials and strategies for student-run laundry service startup
- Crafted application using low-code software Flutter Flow that incorporated backend queries, 2FA, and local variables to create a streamlined, user-friendly application to use as initial beta testing software

Web Content Curator

Investment Research Intern

Chicago, Illinois

June 2023 - Present

- Employed Stauffer software to build multi-page department websites for Economics and History Departments at the University of Chicago
- Created Microsoft Power Automate script to rapidly build 200+ Biography pages
