Team Collaboration  
Problem solving

## Experience

### Steambassador-Internship

Northwestern University | Chicago Illinois  
March 2024 – February 2024

- Led mentoring initiatives for students, fostering interest in STEAM fields—useful for translating trading concepts to technical solutions
- Supported project management tasks, improving organizational and administrative effectiveness—skills beneficial for managing development projects

### Customer Sales Associate

GNC | Chicago Illinois  
December 2019- July 2022

- Provided excellent customer service, enhancing communication skills advantageous for collaborating with traders and team members
- Maintained product knowledge, demonstrating adaptability and quick learning—traits valuable for grasping new programming tools

### Developer-Workshop

Adler Planetarium | Chicago Illinois  
September 2017- December 2017

- Developed a software application, honing practical programming skills applicable to server-side development
- Gained experience with Game Maker Studio, illustrating ability to quickly learn new programming tools
